**Subject:** New look cafeteria

**Feedback:** Great job on the renovations. I did have a few observations that you may or may not be aware of.

- 1) Improved coffee access. During the mornings there's a backlog of people milling around the coffee area and it seems difficult to access. Perhaps moving green mountain back to it's original location near the registers?
- 2) Taco toppings access. It seems the taco area gets slowed down a bit when trying to access the rear toppings. If there were smaller middle sneeze guards, that may improve things, or flipping the rows of toppings 90 degrees to be perpendicular to the patron, vs parallel.

Thanks!
